HTET KO OO

Web Developer Internship Candidate

Bangkok, Thailand | htetkooo2532@gmail.com | github.com/HtetKoOo | linkedin.com/in/htet-ko-oo-602913315

PROFILE

Third-year Digital Technology Innovation student at Kasem Bundit University seeking a web development internship. I build responsive web applications with Next.js, TypeScript, React, and PostgreSQL, with experience in authentication, role-based workflows, data access controls, and practical user interfaces.

TECHNICAL SKILLS

Frontend: Next.js, React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS

Backend and data: PostgreSQL, Supabase, Prisma, Drizzle ORM, REST APIs, Laravel

Workflow: Git, GitHub, pnpm, Vercel, Postman, Zod

Additional: Better Auth, Row Level Security, browser APIs, responsive design

SELECTED PROJECTS

DayFlow | Next.js, TypeScript, Supabase, PostgreSQL

- Built a responsive daily-planning PWA with authenticated task workflows, recurring routines, drag-and-drop scheduling, and Day, 2-day, and Week views.
- Implemented Supabase Auth, Row Level Security, realtime updates, Zod validation, unit tests, and database isolation checks.

KBU Smart Attendance System | Next.js, TypeScript, Prisma, PostgreSQL

- Developed role-based admin, lecturer, and student workflows for attendance, schedules, courses, enrollments, and reports.
- Implemented browser-local face-template matching with server-side authorization, schedule and enrollment validation, and duplicate-safe attendance records.

Our Little Universe | Next.js, Better Auth, Drizzle ORM, Neon PostgreSQL

- Built a privacy-focused couple app with invitation-based partner access, couple-scoped authorization, private memories and media, and responsive mobile-first UI.
- Implemented mutual-answer reveals, Little Jar notes, love letters, presence status, and scheduled Resend email reminders.

EDUCATION

Kasem Bundit University | Bangkok, Thailand

Bachelor's studies in Digital Technology Innovation - Third year, currently enrolled
